

Section 01578-S

CONTROL OF GROUND WATER AND SURFACE WATER

The following supplements modify Section 01578 - Control of Ground Water and Surface Water Standard Specification. Where a portion of the Specification is modified or deleted by this Supplementary Specification, the unaltered portions of the Specification shall remain in effect.

1.02 METHOD OF PAYMENTS: Delete paragraph and insert the following:

"1.02. MEASUREMENT AND PAYMENT

A. Unit Prices:

1. No separate payment will be made to control surface water.
2. Point Repairs:
 - a. Payment for ground water control for each point repair will be for each dewatering system installed and operated. The cost shall include all equipment, operation necessary for each point repair.
 - b. Payment for extra length header will be for linear feet of extra length point repair trench dewatered.
 - c. Payment for test boring will be for each location tested that does not require dewatering.
3. No separate payment will be made for ground water control on excavations removal and replacement, sliplining, obstruction removal, manhole construction, pipe bursting, or cured-in-place. Include cost in unit price for work requiring such controls.
