

Section 01740-S

RESTORATION OF SITE IMPROVEMENTS

The following supplements modify Section 01740 - Restoration of Site Improvements Standard Specification. Where a portion of the Restoration of Site Improvements Standard Specification is modified or deleted by this Supplementary Specification, the unaltered portions of the Restoration of Site Improvements Standard Specification shall remain in effect.

1.02 UNIT PRICES: Delete paragraphs A, B, and C and replace with the following paragraphs A, B, and C:

A. Surface Restoration.

1. Measurement for restoration of surfaces above new line segments and above remove-and-replace line segments is by the linear foot for the total line segment. Payment will be made at the unit price for surface restoration of the new line segment or remove-and-replace line segment. The item covers surface restoration of all excavation, including open-cut trench, shafts, auger pits, and service connections, as applicable. Payment for surface restoration will not be authorized until all restoration on the line segment is completed; no partial payment will be made.
2. Measurement for restoration of surfaces above rehabilitated line segments, including sliplining, cured-in-place pipe, and pipe bursting/pipe crushing is by the linear foot of the total line segment. Payment will be made at the unit price for surface restoration of rehabilitated line segment. The item covers surface restoration of excavation for rehabilitated lines, including shafts, access pits, and service reconnections, as applicable. Payment for surface restoration will not be authorized until all restoration on the line segment is completed; no partial payment will be made.
3. Measurement for restoration of surfaces above point repairs is on the basis of each point repair. Payment will be made at the unit price for surface restoration of point repair. The item covers surface restoration of excavations for point repairs, including all sizes and depths with no additional payment for extra-length point repairs. Payment for restoration above a point repair will not be authorized until all restoration at that location is completed; no partial payment will be made.
4. Measurement for restoration of surfaces around new manholes is on the basis of each manhole. Payment will be made at the unit price for surface restoration of new manholes. The item covers surface restoration of excavation for installation of new manholes, including all sizes and depths. Payment for restoration around a new manhole will not be authorized until all restoration at that location is completed; no partial payment will be made.

- B. The payment items in Document 00405-Schedule of Unit Price Work indicates the total line length for which surface restoration will be paid.

- C. Service Reconnections. Service reconnections are not considered restoration of site improvements and are not paid under this Section. Service reconnections are paid under Section 02534 - Sanitary Sewer Service Stubs or Reconnections.
